

Job advertisement

A.I.Pilot GmbH, a member of the Aeotec Group, is primarily engaged in the development of hardware and software for smart home systems based on the Z-Wave radio standard. The know-how of our company is based on the optimal cooperation of highly qualified hardware engineers and software experts, a pleasant working environment, strong communication and a common passion for smart home.

To further strengthen our team, we are looking for personalities who fit our company, share our enthusiasm for Z-Wave and work with us to advance the idea of the "intelligent" house.

Native iOS/Android App-Developer (m/f/d)

Hohenstein-Ernstthal, Germany

Tasks:

- The creation and further development of mobile applications for the control and administration of a Z-Wave based smart home system.

We expect:

- Great enthusiasm for Smart Home technology
- Completed training or study in the IT area
- Solid knowledge of the languages: Swift and Java
- Knowledge with JSON, browser technologies and Git are advantageous
- Very good knowledge of German and English, written and spoken
- Careful and independent working style
- High degree of independence, willingness to learn and flexibility
- Strong sense of responsibility
- Organizational talent, social competence and ability to work in a team

We offer:

- Cooperation in a motivated and dynamic international team
- Interesting exchange with competent, experienced colleagues
- Exciting and challenging tasks in the smart home environment
- A responsible and varied field of activity
- An open-ended and exciting workplace with a flexible working environment ("We are all at home on the web.")
- Plenty of room for creative ideas
- Performance-related pay and a pleasant working atmosphere
- Professional training in your area of responsibility
- Support for personal development (training, etc.)
- Additional services such as company health promotion
